We are hosting a feminist brunch to celebrate the 50th anniversary of Betty Friedan’s groundbreaking book *The Feminine Mystique*. We will be discussing how the movement that she helped spark has changed our lives, and the work the movement still needs to do by answering these questions:

1. What things in my life as a woman do I want to see changed? How has this changed as I’ve gotten older?
2. What is my role in women’s liberation at this stage of my life? How has that changed as I’ve gotten older?
