WHO ARE THE EXPERTS?

Today a panel of clergymen, doctors and other professional "experts" is picking apart the abortion law. They will tell us, in their usual daddy-knows-best manner, just how much control over our reproductive processes we should be allowed to have.

We say:

THE ONLY REAL EXPERTS ON ABORTION ARE WOMEN!

Women who have known the pain, fear and socially-imposed guilt of an illegal abortion. Women who have seen their friends dead or in agony from a post-abortion infection. Women who have had children by the wrong man, at the wrong time, because no doctor would help them.

Any woman can tell you:

Abortion laws are sexist laws, made by men to punish women.

LET THE EXPERTS TESTIFY.
